Intrinsically Safe ATEX Power Supply 24 V DC

- Can be mounted near controlled equipment, eliminating long runs of multiple cables, conduit, and messy sealing.
- Built-in galvanic isolation eliminates need for IS barriers/isolators.
- Advanced diagnostics provides real-time status for quicker and easier troubleshooting.
- Configuration alternatives address a wide range of application needs.
- Removal and insertion under power makes it possible to replace modules and make cable connections in the hazardous area while the system is in operation.
- Rated for Class I, II, and III / Div 1, Zone 1 and 22 to allow mounting in hazardous locations.
- Conformal Coating of all FLEX Ex modules provides protection against corrosive elements.

SPECIFICATIONS	
Product Series	Flex Ex I/O (Bul. 1797)
Component Type Fieldbus I/O	Power Supplies
Power Supply	19-32V DC
Operating Temperature, Max	70 °C max
Operating Temperature, Min	-20 °C min
